June 8, 2018

Dear Residents/Property Owners:

I am writing this letter today to share information on the pending street reconstruction that is to take place in conjunction with the replacement of utility lines for Combined Sewer Overflow (CSO) Project, Phase 12. I am enclosing a brochure, "Road Construction on My Street," which was designed to answer some frequently asked questions relative to street reconstruction during CSO projects. Streets to be affected in CSO Phase 12 include: Avon Avenue, Ora Avenue, Freeman Avenue, Myra Avenue, Bomhower Street, Mechanic Street, Terrace View Condo's, and Mascoma Street.

As part of our continuing commitment to openly communicate with our residents, on **Tuesday, June 26, 2018, beginning at 3:00pm**, members of City Staff along with the design engineers will be conducting an on-street meeting to review your project area with an eye towards the potential impacts to individual properties. We will begin the meeting at 3:00pm in front of the Jake's Coffee Shop and Car Wash and will be continuing west along the Mechanic Street portion of the Walk to the American Legion. At 5pm we will then be starting the upper portion of the walkabout at the intersection of Avon and Mascoma Street, and walking down Avon, Ora, Myra, Freeman, then Mascoma Street towards the interstate, then turning back towards Bomhower, and finishing on Bomhower. If you do not wish to walk the entire project, please feel free to join us at any point. Attached is a map showing the estimated project limits and walking plan.

We hope that you and all of your neighbors will join us as we walk the project area and listen to your concerns, questions, ideas, and suggestions for making this a project that will best serve the needs of all concerned.

If you have any questions, or would like to speak with me in advance of the above mentioned meetings, please contact my office at 448-4220 or via. Email shaun.mulholland@lebanonnh.gov .

Sincerely,

DocuSigned by:
